

SPEAKER NICHOL: State your point, please.

SENATOR HEFNER: I would like to just alert the body to one particular item here, if I may. Senator Johnson made a statement, he said that the resolution was referenced to the wrong committee, it should have went to the Judiciary Committee. I want to point out to the body that he was chairman of this committee when it was referenced to the Miscellaneous Subjects Committee.

SPEAKER NICHOL: Yes, your point is taken. Senator Pappas, for what purpose do you rise?

SENATOR PAPPAS: Point of personal privilege, Mr. Speaker.

SPEAKER NICHOL: State your point.

SENATOR CHAMBERS: (Interruption, immediate response inaudible.) I'm not going to debate the issue, but the rules say that matters which could have been covered in debate, or where proper subjects of debate have been dealt with, this kind of stuff shouldn't happen. So what I'm going to want, one of these times, is to give me the same break that these other people get to continue debate after it has ceased.

SPEAKER NICHOL: I understand that. Yes. Okay, he was just making... Senator Pappas was just starting to make his point and I was... I understand. Senator Pappas.

SENATOR PAPPAS: In defense of the rest of the committee members, which basically knew that this was a bad bill too, we had to rely on the only attorney in the committee for the legal guidance.

SENATOR CHAMBERS: Chairman, point of order. A point of personal privilege cannot be used as a basis to continue the debate.

SPEAKER NICHOL: Well, I don't think he was actually debating the... he was talking about the committee situation, not the facts of the case. Were you through with your point, Senator? Now do you wish to make your point, Senator Chambers.
